

## **HAGERTY ENVIRONMENTAL – Unsolicited Testimonials**

“Thank you all. Great to know there are people like you to call on when needed. Hagerty Environmental has a great team!”

*Jonathan Martin – Aviation Director, New Garden Flying Field*

---

“Paul’s unique combination of engineering skills and understanding of pollution legal liability coverage make him an invaluable resource to underwriters. His experience and knowledge have been critical in closing complex underwriting deals.”

*Julie Eisenberg, Executive Underwriter – ACE Environmental Risk*

---

“Thank you very much for this report and your participation in the call. This is exactly what was needed. In addition, I actually met the broker on this account...and you impressed both the account and broker with your knowledge, experience, and credentials.”

*Scott Tajak, Senior Underwriter – ACE Environmental Risk*

---

“Thank you for teaching a class on remediation techniques to my students in CEE 8104 Geoenvironmental Engineering. Your wealth of experience and your ability to explain complex topics in [a] straight-forward manner made the class especially valuable.”

*Dr. Andrea L. Welker, P.E., Associate Professor - Villanova University*

---

“Since site work is almost at an end, we would be remiss if we didn’t thank you again for all of your exceptional work, help, input and assistance on all aspects of this project. We think very highly of the entire...team and especially Paul Hagerty. Paul is especially gifted in his ability to communicate complex civil and environmental engineering issues to legal counsel and clients. He is extremely articulate, poised, and informative during his group presentations. His ability to communicate complex engineering ideas to clients is truly exceptional from a legal and general communication standpoint. He is truly gifted in this regard.”

*Mark R. Misiorowski, Esq., Principal - Misiorowski Law Group*

## **HAGERTY ENVIRONMENTAL – Unsolicited Testimonials**

“ We wanted to formally thank you for the fine work that Hagerty Environmental provided to our firm. Hagerty Environmental provided construction management services for multiple Granite Real Estate construction projects, including scope of work design and development, budget development and control, contractor management and schedule control. In this capacity, we found Hagerty Environmental personnel to be professional, thorough and able to operate independently and in the best interest of Granite Real Estate. The projects were within the budget and schedule constraints, which was paramount to Granite. It is often difficult to manage multiple construction projects, especially when they are in different stages of development, but we always found Hagerty Environmental personnel willing and able to effectively manage the tasks at hand and to rise to the construction challenge.

We look forward to working with your firm on future construction projects and would certainly recommend your firm to other colleagues who are in need of construction management services.”

*Gary Freedman, Principal – Granite Real Estate Investment Company, LLC*

---

“ Having been involved in construction project management for over 25 years, it is always a pleasant surprise to engage professionals of the caliber of Hagerty Environmental. They assumed control of a difficult residential environmental problem, which was foundering. They provided cost effective alternatives to resolution, assisted the homeowner in obtaining public funds for abatement, and always communicated the ongoing progress and process in a clear, concise manner. I highly recommend Hagerty Environmental, and I know the homeowner concurs, since it was my home.”

*Ron Bovasso, Project Manager - Homeowner*
